PROFESSIONAL SUMMARY

Detail-oriented Information Technology undergraduate (3rd Year) at SLIIT with strong skills in Java, Kotlin, and web development (HTML). Experienced in Full-Stack Development and Mobile App Development, with a solid understanding of UI/UX design principles. Passionate about building user-friendly and engaging digital solutions, particularly in the movie and entertainment industry. Seeking an internship or full-time opportunity to contribute to innovative projects while developing scalable and efficient software systems.

TECHNICAL SKILLS

- **Languages : Java, Kotlin**
- **UI/UX : Figma , MockFlo**
- **Video Editing : Adobe Premiere Pro , Canva Video Editing**
- **Mobile Development : Android Studio**

ACADEMIC PROJECTS

Health Flow | Health & Wellness Tracker (Mobile)

- **Developed a native Android application using Kotlin, focusing on a highly responsive UI with custom animations to improve user engagement.**
- **Built a wellness suite featuring a Habit Tracker and a Dynamic Mood Calendar, allowing users to visualize health trends over time.**
- **Implemented a "Smart Hydration Tracker" utilizing phone accelerometer sensors to automatically trigger water intake logs based on physical movement.**
- **Integrated automated Push Notifications for hydration reminders and a built-in BMI Calculator for real-time health assessment.**
- **Managed efficient data persistence using Shared Preferences, ensuring local data was saved and retrieved with zero latency.**

Smart Grocery System | Grocery Management & Smart Shopping Platform (Group Project)

- **Developed a smart grocery management system with full-stack functionalities to streamline product management and improve the shopping experience.**
- **Implemented core modules including product management, user management, and order handling using clean and structured code practices.**
- **Designed and developed a user-friendly interface focusing on UI/UX principles to enhance customer interaction and usability.**
- **Integrated smart features such as automated recommendations and efficient data handling to improve decision-making and system performance.**
- **Collaborated using Git/GitHub for version control and teamwork, ensuring smooth integration of system components.**

EDUCATION

BSc (Hons) in Information Technology (Specializing in Interactive Media)

Sri Lanka Institute of Information Technology (SLIIT)

Expected Graduation: 2027

Relevant Coursework : Digital Marketing and Google ads
